

KANSAS CITY  
HEART RHYTHM  
SYMPOSIUM

# ALLIED HEALTH PROFESSIONALS PROGRAM

## WHAT IS THE AHP PROGRAM?

The KCHRS AHP program is a **FREE**, all-day educational program offering a wide variety of topics geared towards allied health professionals that work in the field of electrophysiology.

The morning session will have topics that are applicable to all attendees. The afternoon session will have two pathways, one for those who work in the EP lab and the other for those who work in the ambulatory inpatient setting.

## MARK YOUR CALENDARS!

The program will be held the day before the 2019 Kansas City Heart Rhythm Symposium. Join world-class faculty and take part in a course that allows for plenty of Q & A, discussion, and interaction by registering today!

FRIDAY  
AUGUST 16, 2019  
8:00 AM – 5:00 PM

SHERATON  
OVERLAND PARK  
HOTEL

6100 College Blvd,  
Overland Park, KS  
66211

REGISTER  
TODAY!

# 2019 ALLIED HEALTH PROFESSIONALS PROGRAM

## MORNING AGENDA - ALL ATTENDEES

- 8:30** Anatomy & Heart Dissection Lab (EP Standpoint)
- 9:00** Basics of Electrocardiology - Recognizing the Rhythm
- 9:30** Mechanistic Understanding of Supraventricular and Ventricular Arrhythmias
- 9:45** Fundamentals of Cardiac Devices
- 10:00** Basics of Device Interrogation & Interpretation
- 10:45** Break
- 11:00** Prevention and Management of Cardiac Device Infection
- 11:15** How to Engage with HRS as Allied Professionals?
- 11:30** Question/Answer
- 11:45** Lunch

## COURSE DIRECTORS

**Courtney Jeffery, ARNP, MSN**

Kansas City Heart  
Rhythm Institute

**Yoav Krauthammer, MD**

Kansas City Heart  
Rhythm Institute

## AFTERNOON AGENDA - AMBULATORY PATHWAY

- 12:30** Antiarrhythmic Drugs - Mechanisms, Side Effects and Interactions
- 12:50** Indications and Preparation for Patients Undergoing Inpatient Radiofrequency Ablation for Cardiac Arrhythmias
- 1:10** LAA Management in Atrial Fibrillation - Why, How, and When?
- 1:30** Identification and Management of CIED Implant Complications
- 1:50** Break
- 2:10** Identification and Management of Complications of Radiofrequency Ablation
- 3:00** Cardiac Imaging in EP - MRI, CT, and Cardiac PET

## AFTERNOON AGENDA - EP LAB PATHWAY

- 12:30** How to Set Up and Do a Basic EP Study?
- 12:45** How to Use Ultrasound in the EP Lab - Vascular and ICE
- 1:15** Tips and Tricks to Maximize Safety & Efficacy of Cardiac Device Implantation
- 1:45** Electrophysiologic Maneuvers for SVT and VT Ablation
- 2:15** Break
- 2:30** Step by Step Approach to Lead and Cardiac Device Extraction
- 3:00** How to Prevent and Manage Cardiac Perforation in the EP Lab?
- 3:30** Fundamentals of 3D Mapping - Set Up and Navigation
- 4:00** How to Build and Manage a World Class EP Lab?

## FACULTY

Salwa Beheiry, BS  
Steven Bloom, MD  
Jie Cheng, MD  
Louis Couchonnal, MD  
Ken Demith, BS  
Luigi Di Biase, MD  
Gregory Flaker, MD  
Sandeep Gautam, MD  
Hemant Godara, MD  
Dhiraj Gupta, MD  
Scott Koerber, MD  
Diana Marak, ARNP  
Cherie Nydegger, BSN  
Peter Park, MD  
Wallace Ray, BS  
Alap Shah, MD

*This program is supported by an unrestricted educational grant from Biotronik.  
A certificate of attendance will be provided for educational credits.*
